

ROOM VIEWS

See your Portraits in your Home

Measure the wall space to help in determining which size prints to order. If you have a specific wall or mantel, send me a photo of the wall with a standard 8.5"x11" paper taped on the wall approximately where you will hang your portraits. Please make sure you get both the ceiling and floor in the picture for scale. This allows me to show you exactly to-size, how the portraits will look in your home. It's such a great feature to see it live in your home, so you can make the best decisions for how you will display your new family portraits.
